Description:

Live the dream of moving into the medieval age visiting the charming town of Morella. The town is surrounded by a wall of about 2500 meters long and chaired by a sturdy medieval castle. Inside the walls we have the possibility of walking through its narrow streets and charming spots and visiting its great gothic church.

We start the day visiting the Shrine of the Lady of Vallibana and upon our arrival in Morella a guide will be waiting for us to visit the Basilica of Santa Maria la Mayor. After the visit, we'll have free time to walk around its streets and landmark buildings such as the Castle fortress, the City Hall, the Gate of San Miguel and also the possibility of making some purchases of local products in the main street.

Lunch (not included).

Before returning and in the afternoon we'll visit a ceramic workshop from the Maestrazgo.
