Description:

Valencia is a city that blends harmoniously the remains of the past with the most modern and avant-garde buildings.

We'll approach the twenty-first century Valencia visiting The City of Arts and Science. It is a modern leisure space where culture is the protagonist, a unique site not possible to find anywhere else. The visit also includes tickets for the Science Museum and L'Oceanogràfic. The City of Arts and Sciences is a leisure space where culture is the main character. A unique place in 350,000 m2.

L'Oceanografic is an authentic underwater city of 80,000 m2 where you can find different marine habitats of our planet.

The Science Museum is an open, dynamic and interactive center where visitors can learn while having fun.

Free time for lunch (picnic not allowed). Possibility of having lunch, both inside and outside, of every building of the City of Arts and Sciences.
